A volunteer from Harbor House will contact you regarding your decision.

Our Purpose:

The Domestic Violence Shelter aims to help women and children who are survivors of violence by providing safe shelter, support, education, and access to needed resources. Our goal would be to assist all women in breaking the cycle of violence, mobilizing their resources, and assisting them in developing their own independent safe housing as they depart from the shelter.

Services Provided by Harbor House:

The Domestic Violence Shelter has a home-like atmosphere with a focus on addressing the basic needs, supportive services, education, and assistance with related mental health concerns. The primary goal is to establish a survivors independence, free from any continued violence. The Case Manger will examine attitudes and feelings, entrenched beliefs regarding relationships, decision-making, safety planning, education on the cycle of violence, how to know if you are in an abusive relationship, effects on children, types of violence, and other related information. The facility provides a safe haven to address these complex issues with positive support staff and other residents. Communal living and a shared purpose among the residents plays an important part in the process.

Adopt-a-Room Program

The shelter plans to open in the new location July, 2010 and it needs assistance in furnishing the rooms for its residents. This program will supply Harbor House with the initial items that it needs to furnish the rooms in the shelter, and it will continue as an annual opportunity to replace items and provide support to the shelter. We are targeting individuals and organizations to provide necessary furnishings.

Harbor House provides shelter and program activities for women and children who are victims of domestic violence.

The items on the following pages are needed for the individual rooms. Monetary donations are also accepted of any amount.
